

Routing your email through Impactia servers using Google

Apps for Business

IMPORTANT! If you have SPF Records, please update them BEFORE routing, as explained [here](#).

In order to route outgoing email traffic when using Google Apps for Business, please follow these instructions:

1. In the new Admin console, click **Google Apps > Gmail > Advanced settings**.

Google Apps

Manage the way Google
Apps works for you

2. In the General Settings scroll down to the **Outbound gateway** section.
3. Change the value in Outbound gateway text box to `outx.impactia.com`

Outbound gateway
Locally applied

Route outgoing emails to the following SMTP server: 

`outx.impactia.com`
